TITLES AND SUBJECTS

Adult onset Hallervorden-Spatz disease with neurofibrillary pathology: a discrete clinicopathological entity (Eidelberg *et al.*), 993

Agnosia, integrative visual (Riddoch and Humphreys), 1431

Alcoholism, cerebellar vermis histology in (Phillips *et al.*), 301

Alloaesthesia, (Kawamura *et al.*), 225

Alzheimer's disease: viral genomes and antigens in patients' brains (Pogo *et al.*), 907

Alzheimer type senile dementia, cholinesterase activity in cerebrospinal fluid (Appleyard *et al.*), 1309

Amino acid neurotransmitter abnormalities in Huntington's disease and the quinolinic acid model of Huntington's disease (Ellison *et al.*), 1657

Amnesia, retrosplenial (Valenstein *et al.*), 1631

Amyloid polyneuropathy, hereditary, in north-west Ireland (Staunton *et al.*), 1231

Amyloidosis, hereditary generalized, with polyneuropathy (Ikeda *et al.*), 315

Analysis of cerebellar motor disorders by visually-guided elbow tracking movement. II. Contribution of the visual cues on slow ramp pursuit (Beppu *et al.*), 1

Anomia and word retrieval (Kay and Ellis), 613

Antigens and viral genomes in brains of Alzheimer patients (Pogo *et al.*), 907

Aphasia and neglect after subcortical stroke: a clinical/cerebral perfusion correlation study, (Perani *et al.*), 1211

Aphasia, evidence for double dissociation of short-term memory for lists and sentences (McCarthy and Warrington), 1545

Aphasia profiles correlated with subcortical CT lesion sites (Alexander *et al.*), 961

Apraxia, ideomotor, in stroke patients (Basso *et al.*), 747

Apraxia of speech analysed electropalatographically (Sugishita *et al.*), 1393

Arhinencephaly: the spectrum of associated malformations (Kobori *et al.*), 237

Auditory short-term memory (Starr and Barrett), 935

Bilateral occlusion of the internal carotid arteries: presenting symptoms in 74 patients and a prospective study of 34 medically treated patients (Wade *et al.*), 667

Bradyphrenia in Parkinson's disease and psychomotor retardation in depressive illness: an experimental study (Rogers *et al.*), 761

Calcitonin gene-related peptide-like immunoreactivity in cerebrospinal fluid (Wimalawansa and MacIntyre), 1647

Callosal infarction, posterior, clinicopathological correlations (Degos *et al.*), 1155

Carotid arteries, bilateral occlusion of (Wade *et al.*), 667

Case of integrative visual agnosia (Riddoch and Humphreys), 1431

Categories of knowledge: further fractionations and an attempted integration (Warrington and McCarthy), 1273

Cerebellar motor disorders, analysed by visually-guided elbow tracking movement (Beppu *et al.*), 1

Cerebellar vermis histology in alcoholism (Phillips *et al.*), 301

Cerebral embolism and haemorrhagic infarction (Laureno *et al.*), 93

Cerebrovascular tone instability causing focal ischaemia during hemiplegic migraine (Friberg *et al.*), 917

Changes of regional cerebral blood flow measured simultaneously in the right and left hemisphere during automatic speech and humming (Ryding *et al.*), 1345

Charcot-Marie-Tooth disease (HMSN type I) in childhood (Ouvrier *et al.*), 121

Childhood hypertrophic hereditary motor and sensory neuropathy (Ouvrier *et al.*), 121

Cholinesterase activities in cerebrospinal fluid of patients with senile dementia of Alzheimer type (Appleyard *et al.*), 1309

Chromaticity and achromaticity: evidence for a functional differentiation in visual field defects, (Stoerig), 869

Chronic demyelinating peripheral neuropathy associated with multifocal central nervous system demyelination (Thomas *et al.*), 53

Chronic inflammatory dymelinating polyradiculoneuropathy: a clinical and electrophysiological study of 92 cases (McCombe *et al.*), 1617

Clinical and pathological features of diffuse cortical Lewy body disease (Lewy body dementia), (Gibb *et al.*), 1131

Clinical categories of neurobrucellosis: a report on 19 cases (Shakir *et al.*), 213

Cognition in Parkinson's disease (Taylor *et al.*), 35

Cognitive neuropsychological case study of anomia: implications for psychological models of word retrieval (Kay and Ellis), 613

Comparison of cortical and subcortical lesions in the production of poststroke mood disorders (Starkstein *et al.*), 1045

Computerized cranial tomography, sequential, for cerebral embolism and haemorrhagic infarction (Laureno *et al.*), 93

Contrast sensitivity function and visual evoked potentials in pathology of visual pathways (Wright *et al.*), 107

Contrast sensitivity, spatiotemporal, loss in Parkinson's disease (Bodis-Wollner *et al.*), 1675
Correlations of subcortical CT lesion sites and aphasia profiles (Alexander *et al.*), 961
Critical illness polyneuropathy: a complication of sepsis and multiple organ failure (Zochodne *et al.*), 819
Cutaneous afferent hyperexcitability during the supernormal period (Ng *et al.*), 1015

Deafness, pure word (Tanaka *et al.*), 381
Dejerine-Sottas disease (HMSN type III) in childhood (Ouvrier *et al.*), 121
Demyelinating peripheral neuropathy with multifocal CNS demyelination (Thomas *et al.*), 53
Demyelinating polyradiculoneuropathy, chronic inflammatory (McCombe *et al.*), 1617
Diabetes insipidus, and neurohypophyseal peptide function (Seckl *et al.*), 737
Diagnosis and management of cerebral embolism and haemorrhagic infarction with sequential computerized cranial tomography (Laureno *et al.*), 93
Disordered auditory short-term memory in man and event-related potentials (Starr and Barrett), 935
Disturbances of sequential movements in patients with Parkinson's disease (Benecke *et al.*), 361
Disturbances in conceptual space involving language and speech (Barbut and Gazzaniga), 1487
Double dissociation of short-term memory for lists and sentences: evidence from aphasia (McCarthy and Warrington), 1545

Electropalatographic analysis of apraxia of speech in a left hander and in a right hander (Sugishita *et al.*), 1393
Electrophysiological investigation into the pain-relieving effects of heterotopic nociceptive stimuli: evidence for the involvement of a supraspinal loop (Roby-Brami *et al.*), 1497
EMG responses in different muscles from motor cortex stimulation (Rothwell *et al.*), 1173
Encephalitis lethargica: a report of four recent cases (Howard and Lees), 19
Encephalopathy and myelinolysis after rapid correction of hyponatraemia (Illowsky and Laureno), 855
Epilepsy, chronic experimental, induced by intrahippocampal tetanus toxin (Jefferys and Williams), 517
Epileptic seizures with gustatory hallucinations (Hausser-Hauw and Bancaud), 339
Event-related potentials and disordered auditory short-term memory in man (Starr and Barrett), 935
Evoked potentials, somatosensory, gating of (Cohen and Starr), 451
Extracranial arterial disease, asymptomatic (Hennerici *et al.*), 777
Eye-head coordination in roll (Brandt and Dieterich), 649

Facial flushing and sweating mediated by the sympathetic nervous system (Drummond and Lance), 793
Facioscapulohumeral muscular dystrophy, retinal vascular abnormalities in (Fitzsimons *et al.*), 631
Flexor reflex stimulation (Roby-Brami and Bussel), 707
Focal ischaemia caused by instability of cerebrovascular tone during attacks of hemiplegic migraine: a regional cerebral blood flow study (Friberg *et al.*), 917
'Form' discrimination in a scotoma (Weiskrantz), 77

Generator mechanisms of giant somatosensory evoked potentials in cortical reflex myoclonus (Kakigi and Shibasaki), 1359
Giant somatosenory evoked potentials in cortical reflex myoclonus generator mechanisms of (Kakigi and Shibasaki), 1359
Gustatory hallucinations in epileptic seizures: electrophysiological, clinical and anatomical correlates (Hausser-Hauw and Bancaud), 339

Haemorrhagic infarction and cerebral embolism (Laureno *et al.*), 93
Hallervorden-Spatz disease, adult-onset, with neurofibrillary pathology (Eidelberg *et al.*), 993
Hallucinations, gustatory, in epileptic seizures (Hausser-Hauw and Bancaud), 339
Hereditary amyoid polyneuropathy in north-west Ireland (Staunton *et al.*), 1231
Hereditary generalized amyloidosis with polyneuropathy: clinicopathological study of 65 Japanese patients (Ikeda *et al.*), 315
Hereditary sensory neuropathy, classification (Donaghy *et al.*), 563
Hereditary sensory neuropathy with neurotrophic keratisis: description of an autosomal recessive disorder with a selective reduction of small myelinated nerve fibres and a discussion of the classification of the hereditary sensory neuropathies (Donaghy *et al.*), 563
HLA-DQw1 and multiple sclerosis (Francis *et al.*), 181
Huntington's disease, amino acid neurotransmitter abnormalities and quinolinic acid model (Ellison *et al.*), 1657
Huntington's disease, impairment of rapid movement in (Hefter *et al.*), 585
Hyperexcitability of cutaneous afferents during the supernormal period: relevance to paraesthesiae (Ng *et al.*), 1015
Hypertrophic forms of hereditary motor and sensory neuropathy: a study of hypertrophic Charcot-Marie-Tooth disease (HMSN type I) and Dejerine-Sottas disease (HMSN type III) in childhood (Ouvrier *et al.*), 121
Hyponatraemia, correction resulting in encephalopathy and myelinolysis (Illowsky and Laureno), 855

Ideomotor apraxia, in stroke patients (Basso *et al.*), 747
Idiopathic cranial polyneuropathy: a fifteen-year experience (Juncos and Beal), 197
Immunoreactivity, calcitonin gene-related peptide-like, in human cerebrospinal fluid (Wimalawansa and MacIntyre), 1647
Impairment of rapid movement in Huntington's disease (Hefter *et al.*), 585
Infarcts, left posterior cerebral artery: a resulting neuropsychological impairment (De Renzi *et al.*), 1099

Inflammatory demyelinating polyradiculoneuropathy (McCombe *et al.*), 1617
Insulin resistance in myotonic muscular dystrophy (Hudson *et al.*), 469
Intraneural distribution of myelinated fibres in the equine recurrent laryngeal nerve (Dyer and Duncan), 1531
Intraneural microstimulation in man: its relation to specificity of tactile sensations (Torebjörk *et al.*), 1509
Ischaemia focal, in hemiplegic migraine: rCBF study (Friberg *et al.*), 917
Is the hemispatial deficit produced by right parietal lobe damage associated with retinal or gravitational coordinates? (Ladavas), 167

Knowledge categories (Warrington and McCarthy), 1273
Knowledge of motor commands and the recruitment of human motoneurons (Gandevia and Rothwell), 1117

Labial kinematics during speech in patients with parkinsonian rigidity (Caligiuri), 1033
Lathyrism (Ludolph *et al.*), 149
Leucodystrophy, metachromatic, sural nerves in (Bardosi *et al.*), 683
Lewy body disease, diffuse cortical (Gibb *et al.*), 1131
Localization, timing and specificity of gating of somatosensory evoked potentials during active movement in man (Cohen and Starr), 451
Long-latency spinal reflex in man after flexor reflex afferent stimulation (Roby-Brami and Bussel), 707
Lupus erythematosis, systemic, and neuropathy (McCombe *et al.*), 533

Magnetic resonance imaging in multiple sclerosis and isolated neurological lesions (Ormerod *et al.*), 1579
Memory, disordered auditory short-term and event-related potentials (Starr and Barrett), 935
Memory, short-term, double dissociation for lists and sentences (McCarthy and Warrington) 1545
Memory, short-term, understanding as a function of (McCarthy and Warrington) 1565
Metachromatic leucodystrophy, sural nerves in (Bardosi *et al.*), 683
Microstimulation, intraneural (Torebjörk *et al.*), 1509
Migraine, hemiplegic, with focal ischaemia (Friberg *et al.*), 917
Mood disorders, poststroke, cortical and subcortical lesions compared (Starkstein *et al.*), 1045
Morphometric study on sural nerves in metachromatic leucodystrophy (Bardosi *et al.*), 683
Motoneuron innervation of striated muscles of pelvic floor in cat (Holstege and Tan), 1323
Motoneuron recruitment and knowledge of motor commands (Gandevia and Rothwell), 1117
Motor cortex stimulation in intact man. 1. General characteristics of EMG responses in different muscles (Rothwell *et al.*), 1173
Motor cortex stimulation in intact man. 2. Multiple descending volleys (Day *et al.*), 1191
Motor neuron diseases: clinical findings in lathyrism (Ludolph *et al.*), 149
Movement disturbances, sequential, in Parkinson's disease (Benecke *et al.*), 361
Movement impairment in Huntington's disease (Hefter *et al.*), 585
Movement programming and execution in Parkinson's disease (Sheridan *et al.*), 1247
Multiple sclerosis in north-east Scotland: an association with HLA-DQw1 (Francis *et al.*), 181
Multiple sclerosis and isolated neurological lesions assessed by MRI (Ormerod *et al.*), 1579
Multiple sclerosis: retinal venous sheathing in optic neuritis (Lightman *et al.*), 405
Multiple sclerosis, T cell subsets in borders of plaques (McCallum *et al.*), 1297
Muscular dystrophy, facioscapulohumeral, retinal vascular abnormalities in (Fitzsimons *et al.*), 631
Muscular dystrophy, myotonic, insulin resistance in (Hudson *et al.*), 469
Mutant *mdx*: inherited myopathy in the mouse: morphological studies of nerves, muscles and end-plates (Torres and Duchen), 269
Myelinated fibre distribution in equine recurrent laryngeal nerve (Dyer and Duncan), 1531
Myelinolysis and encephalopathy after rapid correction of hyponatraemia (Illowsky and Laureno), 855
Myoclonus, cortical reflex, somatosensory evoked potentials in (Kakigi and Shibasaki), 1359
Myopathy, inherited, in the mutant *mdx* mouse (Torres and Duchen), 269
Myotonic muscular dystrophy, insulin resistance in (Hudson *et al.*), 469

Natural history of asymptomatic extracranial arterial disease: results of a long-term prospective study (Hennerici *et al.*), 777
Neurobrucellosis, clinical categories (Shakir *et al.*), 213
Neuroendocrine control of vasopressin secretion and its effect on blood pressure in subjects with spinal cord transection (Poole *et al.*), 727
Neurofibrillary pathology with adult-onset Hallervorden-Spatz disease (Eidelberg *et al.*), 993
Neurohypophyseal peptide function during early postoperative diabetes insipidus (Seckl *et al.*), 737
Neuropathy, hereditary sensory, with neurotrophic keratitis (Donaghy *et al.*), 563
Neuropathy, hereditary motor and sensory, hypertrophic forms (Ouvrier *et al.*), 121
Neuropathy in systemic lupus erythematosus (McCombe *et al.*), 533
Neuropathy, nonsystemic vasculitic (Dyck *et al.*), 843
Neuropathy, trigeminal sensory (Lecky *et al.*), 1463
Neuropsychological impairment associated with left posterior cerebral artery infarcts (De Renzi *et al.*), 1099
Neurotransmitter abnormalities in Huntington's disease (Ellison *et al.*), 1657
Neurotrophic keratitis in hereditary sensory neuropathy (Donaghy *et al.*), 563
New look at the human split brain (Sergent), 1375
Nociceptive stimuli, heterotopic, pain-relieving effects of (Roby-Brami *et al.*), 1497
Nonsystemic vasculitic neuropathy (Dyck *et al.*), 843

Oat cell lung carcinoma related to omnipause neurons in opsoclonus (Ridley *et al.*), 1699
Ocular tilt reaction, tonic, in mesencephalic and medullary lesions (Brandt and Bietrich), 649
Omnipause neurons in two cases of opsoclonus associated with oat cell carcinoma of the lung (Ridley *et al.*), 1699
Opsoclonus with omnipause neurons associated with oat cell lung carcinoma (Ridley *et al.*), 1699
Optic nerve and visual association areas; pathology related to visual evoked potentials (Wright *et al.*), 107
Optic neuritis, regional threshold contrast sensitivity in (Plant and Hess), 489
Optic neuritis, retinal venous sheathing in (Lightman *et al.*), 405
Orientation-selective visual loss in patients with Parkinson's disease (Regan and Maxner), 415

Paraesthesiae related to hyperexcitability of cutaneous afferents during the supernormal period (Ng *et al.*), 1015
Parkinson labial kinematics during speech (Caligiuri), 1033
Parkinson's disease, bradyphrenia in (Rogers *et al.*), 761
Parkinson's disease: cognitive changes in relation to treatment response (Taylor *et al.*), 35
Parkinson's disease, disturbance of sequential movements in (Benecke *et al.*), 361
Parkinson's disease, orientation-selective visual loss in (Regan and Maxner), 415
Parkinson's disease, programming and execution of movement in (Sheridan *et al.*), 1247
Parkinson's disease, visual dysfunction in (Bodis-Wollner *et al.*), 1675
Pathological eye-head coordination in roll: tonic ocular tilt reaction in mesencephalic and medullary lesions (Brandt and Dietrich) 649
Pathology of the optic nerve and visual association areas: information given by the flash and pattern visual evoked potential, and the temporal and spatial contrast sensitivity function (Wright *et al.*), 107
Pattern of neuropsychological impairment associated with left posterior cerebral artery infarcts (De Renzi *et al.*), 1099
Peptide function, neurohypophyseal, during postoperative diabetes insipidus (Seckl *et al.*), 737
Peripheral neuropathy, demyelinating, with multifocal CNS demyelination (Thomas *et al.*), 53
Peripheral sensorimotor and autonomic neuropathy associated with systemic lupus erythematosus: clinical, pathological and immunological features (McCombe *et al.*), 533
Physical and behavioural consequences of seizures induced in the rat by intrahippocampal tetanus toxin (Jefferys and Williams), 517
Polyneuropathy, a complication of sepsis and multiple organ failure (Zochodne *et al.*), 819
Polyneuropathy, cranial idiopathic (Juncos and Beal), 197
Polyneuropathy, hereditary amyloid, in north-west Ireland (Staunton *et al.*), 1231
Polyradiculoneuropathy, chronic inflammatory demyelinating (McCombe *et al.*), 1617
Posterior callosal infarction: clinicopathological correlations (Degos *et al.*), 1155
Presence of calcitonin gene-related peptide-like immunoreactivity in human cerebrospinal fluid (Wimalawansa and MacIntyre), 1647
Programming and execution of movement of Parkinson's disease (Sheridan *et al.*), 1247
Psychomotor retardation in depressive illness and bradyphrenia in Parkinson's disease (Rogers *et al.*), 761
Pure word deafness following bilateral lesions: a psychophysical analysis (Tanaka *et al.*), 381
Quantitative histological study of the cerebellar vermis in alcoholic patients (Phillips *et al.*), 301
Quinolinic acid model of Huntington's disease (Ellison *et al.*), 1657

Reassessment of the accuracy of reinnervation by motoneurons following crushing or freezing of the sciatic or lumbar spinal nerves of rats (Brown and Hardman), 695
Recovery from ideomotor apraxia: a study on acute stroke patients (Basso *et al.*), 747
Recurrent laryngeal nerve, equine, distribution of myelinated fibres in (Dyer and Duncan), 1531
Reflexes of wrist flexor muscles in spasticity (Cody *et al.*), 433
Regional cerebral blood flow changes during automatic speech and humming (Ryding *et al.*), 1345
Regional threshold contrast sensitivity within the central visual field in optic neuritis (Plant and Hess), 489
Reinnervation, accuracy of in rat peripheral nerves (Brown and Hardman), 695
Residual vision in a scotoma: a follow-up study of 'form' discrimination (Weiskrantz), 77
Residual vision in patients with retrogeniculate lesions of the visual pathways (Blythe *et al.*), 887
Retinal vascular abnormalities in facioscapulohumeral muscular dystrophy: a general association with genetic and therapeutic implications (Fitzsimons *et al.*), 631
Retinal venous sheathing in optic neuritis: its significance for the pathogenesis of multiple sclerosis (Lightman *et al.*), 405
Retrosplenial amnesia (Valenstein *et al.*), 1631
Role of insulin resistance in the pathogenesis of myotonic muscular dystrophy (Hudson *et al.*), 469
Role of MRI in the assessment of multiple sclerosis and isolated neurological lesions: a quantitative study (Ormerod *et al.*), 1579

Scotoma, residual vision in (Weiskrantz), 77
Seizures in rats from intrahippocampal tetanus toxin (Jefferys and Williams), 517
Senile dementia, Alzheimer type: cholinesterase activities in cerebrospinal fluid (Appleyard *et al.*), 1309
Sensory neuropathy, hereditary (Donaghy *et al.*), 563
Sensory neuropathy trigeminal (Lecky *et al.*), 1463
Slow channel syndrome: two new cases (Oosterhuis *et al.*), 1061

Somatosensory evoked potentials, gating of, during active movement in man (Cohen and Starr), 451
Somatosensory evoked potentials in cortical reflex myoclonus (Kakigi and Shibasaki), 1359
Speech and language related to disturbances in conceptual space (Barbut and Gazzaniga), 1487
Spasticity, reflexes of wrist flexor muscles in (Cody *et al.*), 433
Spatial referents of visual attention (Ladavas), 167
Speech apraxia analysed electropalatographically (Sugishita *et al.*), 1393
Speech disorders in patients with parkinsonian rigidity (Caligiuri), 1033
Spinal reflex, long-latency, in man (Roby-Brami and Bussel), 707
Split brain, human (Sergent), 1375
Stretch and vibration reflexes of wrist flexor muscles in spasticity (Cody *et al.*), 433
Stroke, subcortical, causing aphasia and neglect (Perani *et al.*), 1211
Studies on the aetiology and pathogenesis of motor neuron diseases. I. Lathyrism: clinical findings in established cases (Ludolph *et al.*), 149
Study of viral genomes and antigens in brains of patients with Alzheimer's disease (Pogo *et al.*), 907
Supraspinal control of motoneurons innervating the striated muscles of the pelvic floor including urethral and anal sphincters in the cat (Holstege and Tan), 1323
Supraspinal loop involvement in heterotopic nociceptive stimuli (Roby-Brami *et al.*), 1497
Sural nerves in metachromatic leucodystrophy (Bardosi *et al.*), 683
Sympathetic vasodilatation (Drummond and Lance), 793
Systemic lupus erythematosus with neuropathy (McCombe *et al.*), 533

Tactile sensation, specificity related to intraneural microstimulation (Torebjörk *et al.*), 1509
T cell subsets in multiple sclerosis: gradients at plaque borders and differences in nonplaque regions (McCallum *et al.*), 1297
Trigeminal sensory neuropathy: a study of 22 cases (Lecky *et al.*), 1463

Understanding: a function of short-term memory (McCarthy and Warrington), 1565

Vasculitic neuropathy, nonsystemic (Dyck *et al.*), 843
Vasodilatation, sympathetic (Drummond and Lance), 793
Vasopressin secretion in tetraplegic man (Poole *et al.*), 727
Viral genomes and antigens in brains of Alzheimer patients (Pogo *et al.*), 907
Vision, residual, in patients with retrogeniculate lesions of the visual pathways (Blythe *et al.*), 887
Visual agnosia, integrative (Riddoch and Humphreys), 1431
Visual attention deficit in right parietal lobe damage (Ladavas), 167
Visual attention, spatial referents (Lavadas), 167
Visual contrast sensitivity in optic neuritis (Plant and Hess), 489
Visual dysfunction in Parkinson's disease: loss in spatiotemporal contrast sensitivity (Bodis-Wollner *et al.*), 1675
Visual evoked potentials and contrast sensitivity function in pathology of visual pathways (Wright *et al.*), 107
Visual field defect differentiation (Stoerig), 869
Visual loss in Parkinson's disease (Regan and Maxner), 415
Visually-guided elbow tracking movement for analysing cerebellar motor disorders (Beppu *et al.*), 1

Word deafness, pure, following bilateral lesions (Tanaka *et al.*), 381
Word retrieval and anomia (Kay and Ellis), 613
